

Top Choice Plumbing Company Profile

Top Choice Plumbing LLC was originally incorporated in Tennessee in 2020, then moved to South Carolina in 2023.

The focus of the company is commercial services, drain services, and complex special projects such as oil-water separators, storm drainage, industrial facilities, hospitals, hotels, leak detection, convention centers, airports, and government facilities.

Top Choice's mission is to provide a clear path to our clients, partners, and employees. Our core values of transparency, honesty, authenticity, and humbleness guide everything we do for our clients. We diagnose problems, design solutions, and do the work required to ensure the successful completion of the task so that our clients can focus on their own business.

This requires progressive business planning and meticulous attention to detail throughout the process. It is essential that policies and procedures are maintained that govern how the company conducts business concerning safety, quality assurance and day to day operations. It also requires that capable and trained team members are retained, as well as afforded an environment conducive to success and advancement.

Top Choice's success is attributed to a constant pursuit of the latest technologies to meet the demands of an ever changing industry and by investing resources in our skilled workforce. We are recognized as a premier provider of plumbing and leadership training in the industry, promoting a culture of classroom education as well as individual instruction conducted on the jobsite. To further our quest for excellence in skilled professionals we created a four year plumbing apprenticeship program in the state of South Carolina under the Works Building Trades Foundation [501.3(c) non-profit], which requires a minimum of 576 hours of classroom education in addition to 8,000 hours of on the job training.

Top Choice Plumbing is a founding member of the Works Building Trades Foundation (WORKS), and Path Apprenticeship Program (PAP).
